

More than 100 years of combined experience in packaging

With Head Quarters in USA, **CVC Technologies, Inc.**, manufactures and supplies packaging machinery for pharmaceutical industries worldwide. CVC branch offices are strategically located across the world – California-USA, USA East Coast office, Moscow-CIS & Baltic States, Bangalore - India, Taichung - Taiwan, Jakarta - Indonesia & Shanghai - China. CVC realises that without direct presence near to customers, it will be near to impossible to offer the right solution at the right time and to extend strong local service support to the customers.

CVC's philosophy is to create accurate, state of the art, affordable machinery for pharmaceutical industries. Its manufacturing unit is ISO 9002 certified and the company offers a range of packaging equipment. CVC Hawk Labeler has five US patents to its credit. CVC offers the one of the world's finest and most reliable packaging systems. Its products are recognized and sold around the world.

CVC has speciality in offering fully integrated Packaging lines, Labelling application systems, and machines for counting, filling and capping various pharmaceutical products. The bundled product offer includes Bottle Unscramblers, Dessiccant Inserters, Tablet/Capsule Counter & Filler, Cotton Inserters, Capping Systems, Induction Sealers, Labelers, Shrink Banders & Cartoners.

Proud owners of CVC machineries throughout the world have seen its attractive machines transform their factories into showplaces. The technical excellence of the machinery has enabled CVC to compete successfully in the global market. Renowned pharmaceutical companies like Roche, Novartis, Glaxo Smithkline, Wyeth, Bayer, Eli Lilly, Boehringer, Merck, Dupont, Pfizer, 3M Riker, Merck Sharp, Dohme Aurobindo Pharma, Orchid Healthcare etc., to name a few, have encouraged and extended their support for the growth of CVC. With their

support CVC could reckon a name in the pharmaceutical packaging sector.

After serving the pharmaceutical industries, CVC understands that product quality, cost-effectiveness and production efficiency are the driving forces behind a company's business. CVC is fully committed to ensuring that its machines operate at the peak of their productivity throughout their life cycle. When business is done with CVC, the company's support does not end once the machine is installed. CVC will help to minimize the risks inherent to each business and maximize your return on investment.

The CVC team has more than 100 years of combined experience in the packaging industry, which enables it to propose the right solution for packaging a specific product. The team works closely with the customers from the beginning of the project to provide consultation and recommendation through execution. The team members are continually improving their knowledge and skills through updated training programs and daily customer contacts.

The Indian branch of CVC is in operation since the last quarter of 2002. The setup is self sufficient to handle sales as well as after sales service demands from the Indian market. CVC's support programs are continually evolving. It is armed with a full force of factory-trained technical support professionals. Its customer support technicians are at your disposal every day round the clock.
